

## Broadblue Voyager365 - Standard Specification

The Broadblue Voyager365 is a fantastic family cruising catamaran and is designed for fast coastal and inshore passages, with a full offshore capability should the need arise.

Key to the easy handling of the Broadblue Voyager365 is the innovative “sail station” which has proved to be so popular on the small sister the 345

The concept, bringing all of the working sheets and halyards to a single forward facing location alongside the helm station. This ensures that the Voyager365 can be easily handled by one person, including reefing of both the main and headsails.

The spacious accommodation includes three double cabins and a single berth option midships. The boat comes as standard with owners hull and large heads with a guest heads in the port hull.

### Steering

- ✦ Hydraulic steering system
- ✦ Stainless steel steering wheel
- ✦ Semi balanced rudders
- ✦ 2x Tillers and Tie bar
- ✦ Emergency tiller access hatch
- ✦ Emergency tiller

### Construction

All Broadblue catamarans are rated to the highest appropriate level of the European Recreational Craft Directive. Hull and deck mouldings are hand laid glass fibre, using powder - bound mat, multiaxial e-glass fabrics, and suitable resin. Below the waterline the hulls are solid laminate using vinylester resins, while the topsides and deck incorporate PVC foam and polyester resin. The deck has an integrally moulded non-slip finish. The hull and deck join is fully bonded and a substantial rubbing strake is fitted. Bulkheads are structurally bonded to the hull and deck, which, together with the interior furniture forms a light and strong structure. The Broadblue Voyager365 is virtually unsinkable due to its watertight bulkheads and buoyancy compartments fore and aft. The keels are integrally moulded.

### TECHNICAL SPECIFICATION

Engines :	3 cylinder 20hp diesel with Saildrive	
Rig :	Fractional sloop with bowsprit	
Layout :	Owners choice but up to 8 berths	
RCD Category :	Category A (Ocean)
