

You only live once.

Broadblue Voyager345

Expect more.

Our entry level model, the Broadblue Voyager345 is a boldly engineered, incredibly space efficient design. Small enough to make a passage through the French Canals. but robust enough for Category A (Ocean) status, and with a impressive 2 metre standing headroom throughout the boat.

One World. One Life. One Cat.

www.broadblue.co.uk

The Broadblue Voyager345 is the entry level model in the Broadblue range and is designed for fast coastal and inshore passages, with a full offshore capability should the need arise.

Key to the easy handling of the Broadblue Voyager345 is the innovative “sail station” concept, bringing all of the working sheets and halyards to a single forward facing location alongside the helm station. This ensures that the Voyager345 can be easily handled by one person, including reefing of both the main and headsails.

The spacious accommodation includes two large double aft cabins and a single cabin forward as standard. This can be extended by incorporating a single cabin amidships on the port side and a saloon conversion for a double berth.

When combined with the optional second head this allows up to 8 people to sleep aboard and enjoy the facilities of two heads and two showers - all in a 10m catamaran.

TECHNICAL SPECIFICATION
